6. Remarks and Other Relevant Information:

We have had water rights to the Andy Creek spring/creek since 1949. It was used for domestic water until 1980, afterwhich it was used for fire suppression and irrigation around cabins, only. Since 1980, Andy Creek cabins have shared the domestic water from the USDA Forest Service well located at Indian Creek Campground. In 2009, Andy Creek cabins were notified that the USDA Forest Service would no longer be sharing its well with other entities. In 2011, Andy Creek will be acquiring its domestic water from a new well located about 140 feet N of the existing USDA Forest Service well. An additional point of withdrawal from the water right for the Andy Creek spring/creek will be created at this new well. The Andy Creek spring/creek water will continue to be used for fire suppression and irrigation around cabins.
